

Exceptional

Tattoo Equipment & Ink Supply Co.

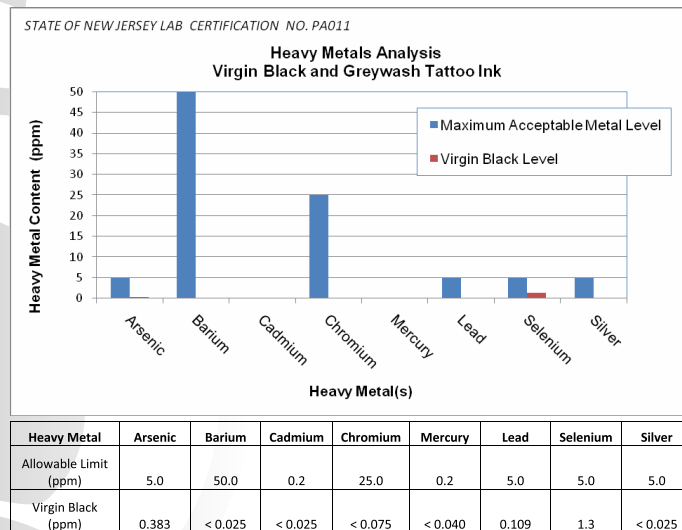

★ CERTIFICATE OF CONFORMANCE

Our number one priority is to provide the safest tattoo inks available on the market with the highest attainable quality. All Virgin tattoo inks are manufactured by a batch process using statistical process control to assure consistent product quality.

Virgin tattoo inks are formulated to meet the guidelines set forth by the state of California Proposition 65, the European Union, and the World Health Organization regulations for tattoos and permanent make-up. We guarantee the following:

Table 1 -

• **TAMPER PROOF SEALS -**
All bottles are individually foil sealed to prevent contamination.

• **RAW MATERIALS -**
Virgin inks only use FDA certified colorants according to the Code of Federal Regulations under Title 21 (Food and Drugs), section 74 (Colorants).

• **HEAVY METALS ANALYSIS -**
All products are tested to certify that our ink does not contain toxic heavy metals (see table 1).

• **CLEAN -**
Only clean bottles, caps, seals are used to package our products in a clean manufacturing laboratory setting.

• **AROMATIC AMINES -**
Virgin Inks do NOT contain aromatic amines.
