Scorpion

We are proud to present the Scorpion tattoo machine. Designed with the tattoo artists in focus and ready to take tattooing to the next level. With active vibration damping, smooth contactless magnetic needle drive and improved cross contamination control. The unique kinetic design allows fast saturation but also does minimal damage to the skin.

The Scorpion utilizes Neo cartridge needles especially designed for best possible hygiene and smoothness. Organizing and overall workspace orderliness is easier than ever with magnetic fixation, secures the needles where you want them when working.

Specifications
