

TRUST THE ORIGINAL!

The number 1 – Made in Germany. All the others just pretend.

WARNING!

China-made fake cartridges are leaking, they are unsterile and grubby packaged. They can spread contagious diseases! Due to the missing membrane they quickly destroy your machine. Cheyenne cartridges seal the ink feed. Your control unit and machine stay untouched.

All warranties for original cheyenne equipment expire!

Thus we strongly advise you not to use the cheap copies of our cartridges with the original Cheyenne machines.

All Cheyenne units are subject to maximum security checks and are constantly tested for hygiene, sterility and function.

Cheyenne cartridges keep your mind free for the only important thing:

Pure passion with no doubts – for your body art!

TRUST THE ORIGINAL!
