

## Measuring Body Jewelry

This chart is a reference guide for measuring different types of body jewelry, and includes common measurements for lengths and diameters, ball sizes, and gauge. Simply lay your jewelry on the diagrams below to determine the accurate size.

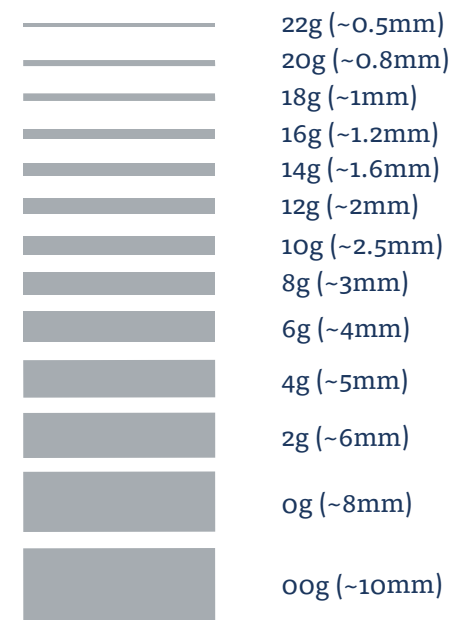

### Length

### Ball Sizes

### Gauge

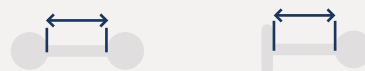

#### Captive Bead Rings & Circular Barbells

Measure inner diameter

#### Straight Barbells, Bent Barbells & Labret Studs

Measure inner length

#### Gauge

Measure thickness

Please note: Chart must be printed for accuracy; do not measure your jewelry on a screen. When printing, ensure Page Scaling is set to None.

→ This box should measure 3 inches long (~76.2mm) ←
